

## Soft Touch Matte (F-STF)

FLEX Films (USA) offers F-STF as a soft touch/velvet feel Matte BOPET film, especially designed to laminate high quality graphic media with a velvet feel, similar to peach skin. This film is produced in our state of the art facility in Elizabethtown, KY or sourced globally from one of our worldwide production centers.

### *Features and Benefits Include:*

- ✓ Excellent Matte homogeneity / dispersion
- ✓ Extraordinary soft feel but with matte appearance
- ✓ High haze
- ✓ Low Gloss on Matte side
- ✓ Excellent contact clarity
- ✓ Possible Matte BOPP replacement
- ✓ Excellent scratch resistance

### Film Structure

Grade	Thickness	Haze	COF	Gloss Soft Matte Side	Typical Applications
F-STF	12 - 50µm	> 80%	0.55µs	< 5 @ 45°	<ul style="list-style-type: none"> <li>• Luxury packaging film</li> <li>• Graphic, advertising banner</li> <li>• Top end stationary products (Diary, Books)</li> <li>• Label</li> <li>• Matte BOPP replacement</li> </ul>
